

## Natural Resources

### *Issue #1 - Natural Resources Reform*

Government reform discussion is something that the tribes need to and want to be involved in. Include tribes in the decision making process from the very beginning. The tribes want to make this a true partnership.

*Action items:* Indian law experts come do a discussion on this topic (Indian Law 101) with all of the state agencies.

### *Issue #2 - Centennial Accord Natural Resource Council*

The purpose of the council is to address priority natural resources issues of mutual concern to the tribes and the State of Washington. The council will provide a forum for the Tribes and State to identify "government-to-government" issues with respect to management of natural resource that are mutually identified as high priority to address and resolve.

*Action items:* Meet in the fall.

*Timeline:* Discuss these topics with the Governor in the fall.
